AIRCRAFT SERVICES

„It is our goal to consistently provide the highest level of service options to our Business Jet customers. Our strategy is to focus on reducing maintenance ground time in order to maximize utilisation.“

HERE WE ARE.

Michael Gottwald, Business Jet Maintenance Manager

BUSINESS JET MAINTENANCE

NAYAK – YOUR BUSINESS JET SERVICE PARTNER
Nayak Aircraft Service is Europe's largest airline-independent aircraft service partner. Since 1974 the family-owned enterprise has proven to be a strong and reliable partner.

At present we work on more than 25 European Airports and we are flexible to develop new stations within short time where you need us. To serve you best we offer flexible services 24 hours 7 days a week and care for your special needs and individual wishes.

We provide full-service aircraft care including line/base maintenance, engineering and design and support in buying and selling an aircraft.

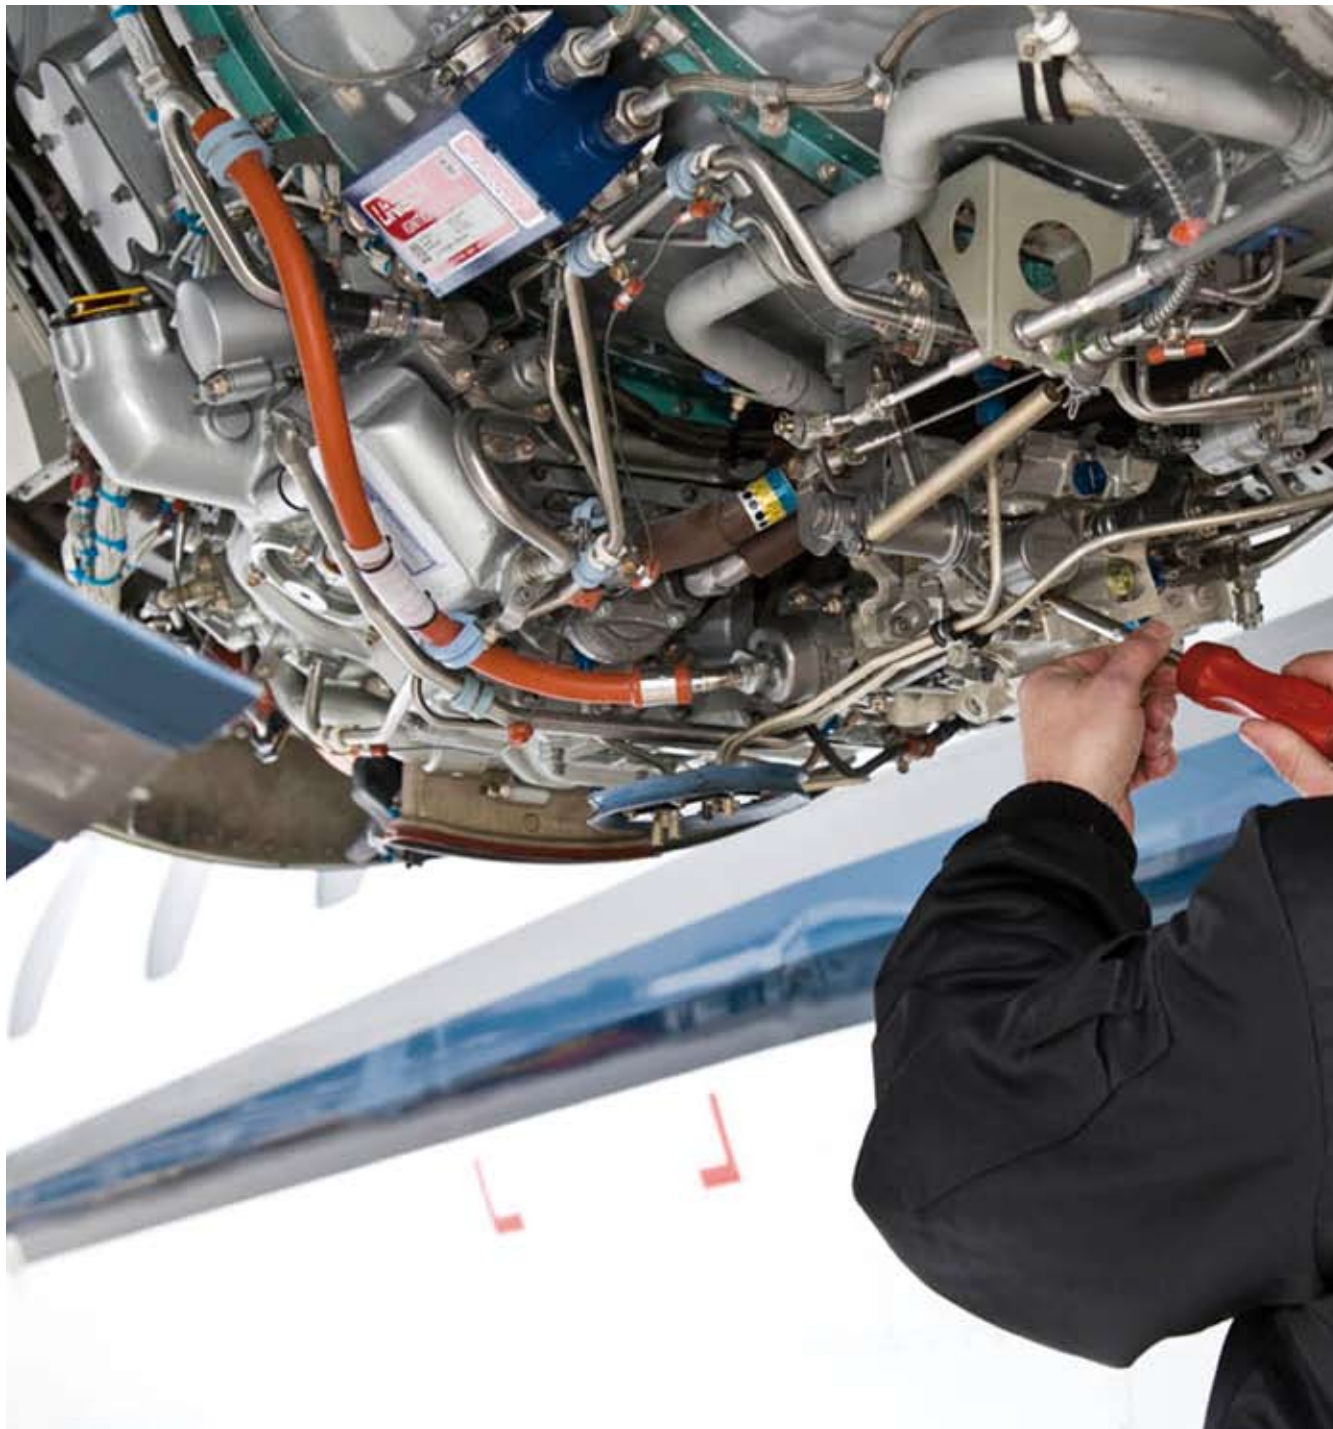

„EMBRAER AUTHORIZED SERVICE CENTER FOR PHENOM 100“

Embraer has named Nayak Aircraft Service as an Embraer Authorized Service Center. The company became the first MRO facility in Germany to serve Embraer's Phenom 100.

NAYAK's main base in Cologne will provide warranty support, as well as line and base maintenance services for Phenom 100 and Phenom 300 customers.

Our business jet maintenance services include routine inspection, scheduled and unscheduled maintenance, as well as airframe, engine, avionics and other system repairs, 24/7 assistance, AOG mobile rescue team and inventory of expendable and repairable parts.

BUSINESS JET MAINTENANCE

CAPABILITIES

We are approved by the EASA, FAA and BDCA and full authorized service center for Embraer's Phenoms and has been approved by Honeywell Line Maintenance Service Center for TFE 731 series engines. Additionally, we are European Repair Station for Artex.

NAYAK holds Part 145, Part 21, Part 147 approvals. Under the EASA Part 145 approval Nayak Aircraft Service maintains the following jets in the market of business aviation:

HAWKER BEEHCRAFT

- > Hawker 750
- > Hawker 800 Series
- > Hawker 800 XP
- > Hawker 850 XP
- > Hawker 900 XP

CESSNA

- > Citation Excel 560 XL
- > Citation Excel 560 XLS

DASSAULT

- > Falcon 50
- > Falcon 900 B
- > Falcon 900 C
- > Falcon 900 EX
- > Falcon 2000
- > Falcon 2000 EX

LINE SERVICES PROVIDED

- > Cleaning
- > Hydraulic Service
- > Nitrogen Service
- > Oil Service Engine
- > Oxygen System Service
- > Tire Pressure Service
- > TKS System Service
- > Tire and Brake Wear Check
- > Record APU Hours
- > Technical assistance
- > AOG support

BUSINESS JET MAINTENANCE

ENGINEERING & DESIGN

NAYAK has been licensed as a national development organisation under EASA Part 21. Our main goal is to provide solutions for individual needs. Whether you want new navigation equipment, the latest in communication technology or your cabin entertainment system needs to be upgraded we will find the best solution. For example our design and engineering department developed the EASA STC's for Lo Presti HID Landing Lights System on Hawker and King Air Series. This system consists of very bright Xenon lights which provide better visibility and enhance safety.

STC DEVELOPMENT

NAYAK is also authorized to develop Supplemental Type Certificates (STC) and Special Airworthiness Certificates for aircraft altered under STC requiring flight tests. For our clients we coordinate market research and provide materials, services and technical data to obtain the EASA approval.

- > Installation of Iacobucci Nespresso Coffee Maker
- > ELT (Emergency Locator Transmitter) Repositioning
- > Installation of Wing mounted Lo Presti Xenon Taxi/Landing Lights in Raytheon Hawker 800A/B; 800XP; BAe 125-800A/B; 1000; 850XP
- > Installation of Lo Presti Xenon Nose Gear Lights in Beech 200/300/1900 Series
- > Installation of Blue Sky Iridium Satcom C-1000A in Raytheon Hawker 800 / 800XP/ BAe 125-800 Series Aircraft
- > Installation of Blue Sky Iridium Satcom C-1000A in Citation Excel 560 Series Aircraft

BUSINESS JET MAINTENANCE

EXPERT GUIDANCE IN BUYING OR SELLING AN AIRCRAFT

Whether buying or selling an aircraft, NAYAK stands for expert guidance and advice. We monitor aircraft values, maintenance costs, review of technical reports and purchase surveys, federal regulations, European (EASA) and United States (FAA) registration/ de-registration and tax laws. Aircraft buyers and sellers benefit from our expertise.

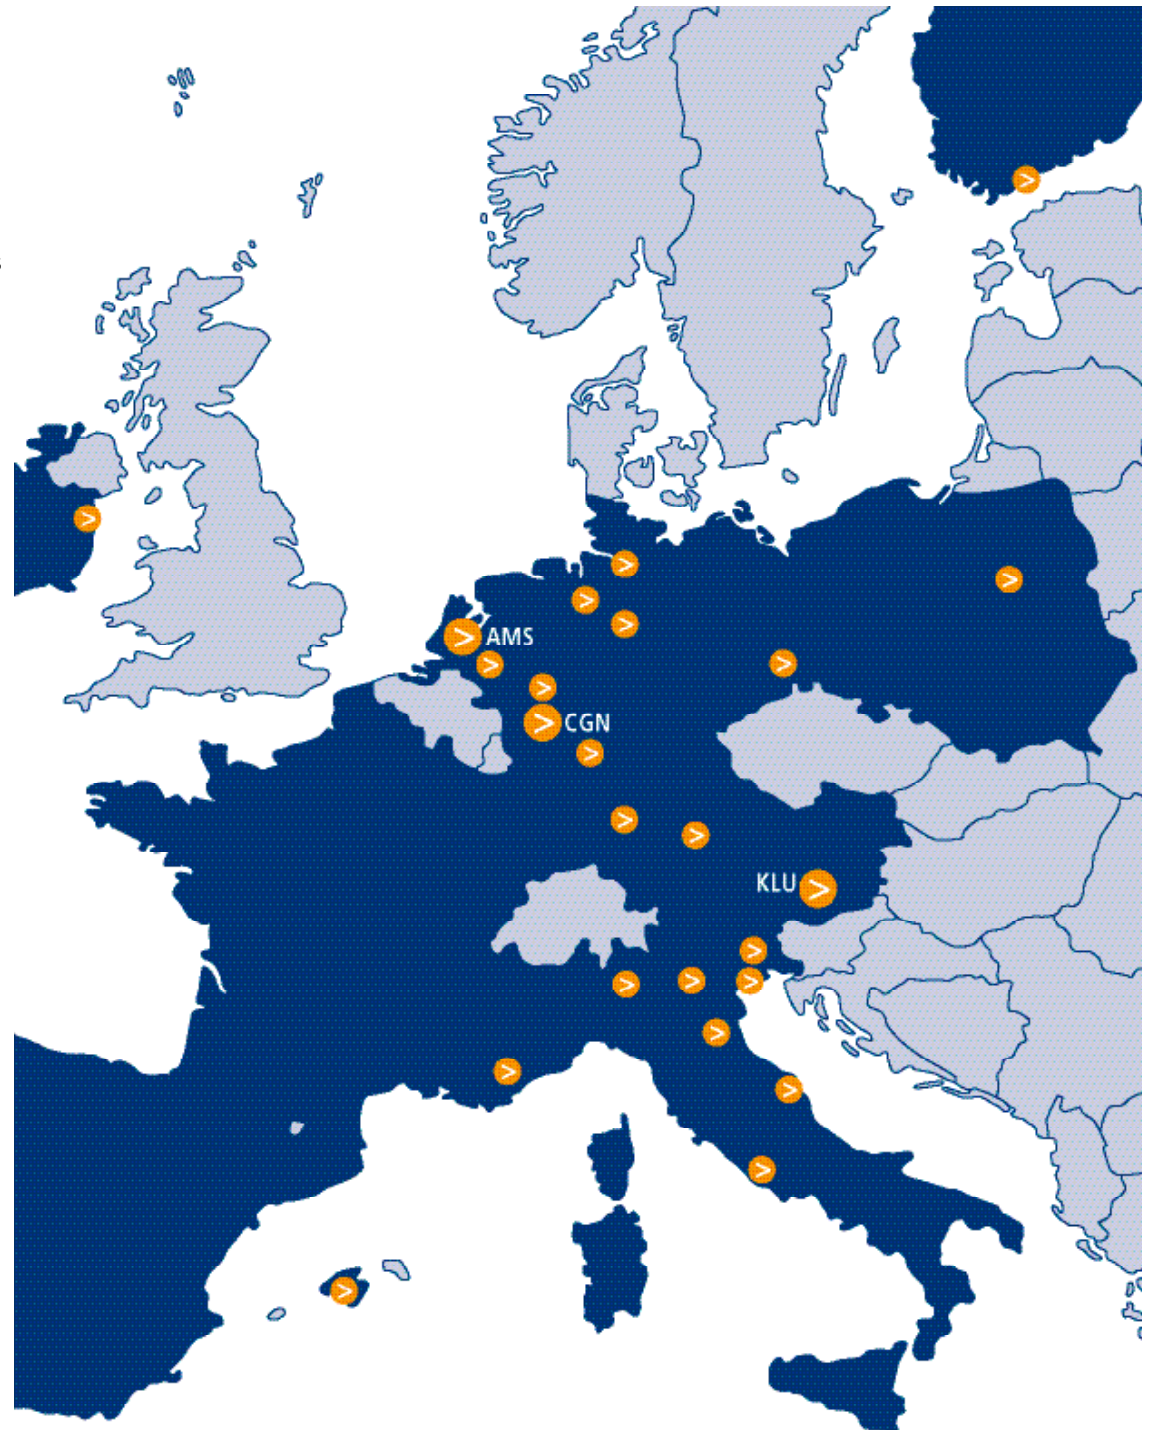

NAYAK is working together hand in hand with all leading aircraft manufacturers. We can simplify the process of purchasing an aircraft and finding an offer that perfectly matches your needs and budget. This includes services like arranging demonstration flights, pre-purchase inspections and support in contract negotiations.

The technical knowledge of our inspectors is a benefit that is valued to both buyers and sellers. NAYAK is developing and executing solutions that make the best sense for its customers – financially, operationally and strategically.

COMPONENT SERVICE CENTER

Our 2000m² storage facility allows to overhaul and store wheels and brakes for our customers. Furthermore, NAYAK offers tyre changes, NDT and if desired we even can handle purchasing for you.

We keep accounts of all your wheels and brakes and take over the administrative work. Moreover, we transport the wheels and brakes to exactly where they are needed and pick them up again.
