## **Nayak and Zufall Logistic – Partnering to offer a full aerospace solution**

Nayak Aircraft Service has selected Zufall Aerospace Global Logistics as their nominated forwarder to build a scalable, global and elongated business association.

The partnership agreement was signed February 2021 with the prime focus to interfuse endeavor and provide exquisite logistic solutions for our customers.

Zufall Aerospace will be handling all the shipments and providing dedicated aerospace expertise in customs formalities, 24/7 AOG support, special deliveries, etc. for Nayak.

"The collaboration with Nayak will enable us to conceptualize both resources and expertise to bring some innovative and exclusive solutions in the market. A brilliant team is the epitome of actualizing any ambitious perception " says Head of Aerospace, Rohan Shroff and Alexandros Prodromou, of Zufall Logistic.

"We are pleased to ally with Zufall Aerospace, specifically elated on the prospect of working together with their aerospace logistics professionals, strengthening our spectrum and in addition to our services also providing "Logistics Expertise" to our clients," says Joerg Sauerland, Managing Director of Nayak.

We look forward to a long and enduring partnership.

### **About Nayak**

With currently about 700 employees in the MRO business, the Nayak Group offers its services at 47 European airports. The main focus is to provide full outsourcing solutions for our customers with a variety of technical services for the defense and civil aviation business. Currently Nayak has more than 200 contracted customers. Nayak is known for its Line and Base maintenance solutions and has its own Part-147 training organization, which has just recently received the approval to conduct training courses for non-destructive testing.
