

Nayak is expanding its team in the Netherlands.

Are you in for a new challenging and varied job in Aircraft Maintenance?

About Nayak:

Are you looking for a job where safety is paramount and where no day is the same within a dynamic company? Then Nayak is for you.

Supporting Airbus, Boeing & Embraer aircraft around the globe, founded in 1974, Nayak Aircraft Services is an independent MRO specialized in maximizing fleet performance. Operational throughout Europe, Nayak services in excess of 210 airlines. Nayak strives to be the best maintenance provider, providing our customers with solid solutions, a responsibility that requires a great deal of organization and commitment.

As Europe's largest airline independent MRO service provider, Nayak offers its services at 50 stations in 16 different countries across the continent for over 70 different aircraft types. With main bases at Düsseldorf, Amsterdam and Milan as well as a network of line maintenance stations, Nayak is able to provide line maintenance support wherever assistance is required. In addition, our flexible team is able to support on AOG basis, being able to reach any airport within Europe to bring your aircraft back to service.

Nayak believes that people are paramount. There can be no weak links when you are responsible for millions of euros worth of machinery, when you are responsible for the safety of crew and passengers, when there is no corporate machine to hide behind and your business hinges on customer satisfaction. Each Nayak team consists of highly trained, dedicated professionals who understand their job and the industry.

Job description:

As an Aircraft Maintenance Engineer, you will be responsible for, among other things, the following:

- You independently carry out inspections, repairs, modifications, and fault search.
- In addition, you carry out the administration of the work performed in accordance with the regulations.
- You are jointly responsible for the technical punctuality and fleet availability of our customers both at Schiphol and at outstations.
- You lead (functionally) mechanics and supervise the work they carry out.
- It is a function that is performed in shifts (24/7).

What we expect from you?

- You have a B1.1 and/ or B2 Aircraft Maintenance Licensed with preferably an Airbus/Boeing or other aircraft type training.
- You are residing in the Netherlands and eligible to work in the European Union.
- You have strong communication skills, and you are customer friendly.
- You have proactive and flexible attitude.
- You are solution oriented, quality and result driven.
- You master the English language in word and writing.

You see yourself in the following points: stress-resistant, flexible, initiative, team player, effective communication. Then we are looking for you!!

What can you expect from us?

- A challenging position in an international, dynamic working environment.
- Working in an informal and international working environment.
- Possibilities to do additional type training.
- A balanced shift schedule (5 on-4 off)
- Collective labor agreement (CAO Metalektro), Pension (Metalektro Pension Fund PME)
- Competitive salary between € 2.950,38 to € 4.324,36 and benefits.
